

# Catalog of Sacred Artifacts

assembled from

*Our Lady of Good Counsel,  
St. Augustine  
Saints Peter & Paul  
St. Monica*

---

Rochester, NY

v. 1/2/08

## *Read First*

This pictorial catalog gathers the sacred artifacts from the four southwest Rochester, NY Roman Catholic parishes that joined together as one as part of a Pastoral Planning restructuring process. Three churches closed as part of this parishioner-directed process and the parishes united as one at the New Saint Monica church campus that remained open.

The sacred objects gathered here provide both an archival listing of the former faith communities' artifacts while providing an opportunity to find new homes for the items that exceed what the community actually needs.

*There are two key resources in this archival system:*

1. An **electronic catalog of the sacred objects' images in PDF file format** with basic specifications. When viewing the catalog, keep the setting at **actual size**. Note the **"Photo Code"** listing within the specifications that pertains to the following resource.
2. A complete **digital library of over 750 images** that corresponds with the electronic catalog of approximately 230 items listed above. Most of the sacred artifacts have several photos taken from different perspectives. Accessing the "JPEG code" listing from the catalog item enables the viewer to examine *other* higher-resolution images of a specific object and then "zoom in" for greater detail.

*Limitations and Disclaimers:*

All weights listed are simply "best guesses". Dimensions for the three-dimensional objects are accurate but the later listings for paintings are strictly estimates. Low resolution images plus amateur flash photography may minimize the appearance of flaws. Metals are listed primarily by their *appearance* or coloration and need professional determination as to their actual content.

For further information about the sacred artifacts seen here, please contact the New Saint Monica parish office at (585) 235-3340 and request to speak with the Business Manager. *When referencing an item, use the catalog numeric code plus the JPEG codes.*
