

Ice Storm 2003 Ss. Peter & Paul

Saturday 4/5/03 6:00am

Tree snapped
at base near
east transept
entrance.

At the left of
the photo is
the stump of a
tree lost in the
1991 Ice
Storm.

Ice up to 1/2
inch thick
caused the
tree to topple.

Stained glass
windows were
spared.

We lose an
old friend.
Tree next to
east entrance
snapped on
Friday 4/4/03.

Heavy ice glaze on limbs.

Limbs covered the walkway.

Dan Hoffman trimmed the tree to permit access.

Heavily laden bush near bell tower.

Ice melted without serious damage.

Ice glazed bushes near bell tower survived avalanches from the roof as ice melted.

Facing West Main Street.

Treacherous and slippery sidewalk/

Ice and snow at 3 inch depth.

Heavily ice-glazed evergreen survived in spite of mid-afternoon strong winds.

Playground: some tree limb damage.

Tall pine trees survived.

Glazed sidewalks.
Slush layer on top and ice layer below.
