April 1986

Dear Friends:

Greetings from Rochester, New York. The Good Lord has gifted us with nice weather. 85° made Easter Sunday a delightful day.

Typical of Rochester weather we are now back to cold days. A promise of a mid-April snowstorm.

Here at SS Peter and Paul's things have begun to change. Four years ago we had in our plan of ministry here to open a day care center. Already the ministry serves almost 300 meals a day and gives out clothing each Saturday to almost one hundred people. In early February the contractors arrived and began renovations to the rectory. Father and the Brothers have moved to the third floor and the offices are being moved to the second floor along with the community's dining room and recreation room. The first floor will be given to day care ministry.

That's my reason for writing. To ask if you can help in any way possible to help finance our project. My goal is to try and raise \$20,000.00 toward the renovation.

Sometimes as the years have passed we have constantly seen our youth short changed. So I am asking people to give where possible to help our youngsters in the neighborhood. Our parish is totally poor and our outreach to these youngsters will be a sign that the church cares.

Perhaps you would like to contribute in memory of a loved one or in memory of a youngster.

May God bless your generosity. If you cannot help financially please help with your prayers.

Wishing God's blessings,

Brother Bob Di Manno, SS.CC.
