# Paschal Candles

Made by the hands of highly skilled craftspeople in a painstakingly slow, traditional hand-dipped process, Mack-Miller's exquisitely beautiful Paschal Candles are 51% pure imported beeswax. Scrupulous attention to detail is given to our hand decorated Paschals as can be seen in our hand-made ornamentation fashioned by artisans. And Mack-Miller STILL uses 23.9K gold leaf in its gold ornaments which can be readily seen when compared to candles of other companies using artificial gold ornaments.

## THE NEW ALPHA & OMEGA TREE OF LIFE PASCHAL CANDLE

A magnificently adorned candle in five brilliant colors and rich metallic gold. From the root beginning – the Alpha, interwoven gold branches, accented with emerald green leaves, entwine up and envelop artistic symbolisms of three Holy Sacraments . . . Baptism, First Communion, and Confirmation in unity with Christ. The tapering limbs ascend to the top, to the end – the Omega . . . and finally crowned with the signum of the Holy Spirit, the Dove. The Alpha & Omega Tree of Life image uniquely encircles the candle for added peripheral viewing, and it is positioned below the center of the candle which allows longer use before burning the decoration.

## THE NEW CALVARY PASCHAL CANDLE

A contemporary design of simplicity in subdued coloration to reflect the solemnity of Christ's death.

The abstract reflections of His cross forever mirror for mankind the paradox of Christ's suffering and the joy of mankind's salvation through His death and resurrection.

Also, specially designed for use at the Mass of Christian Burial (see page 3 for matching Altar Candles).

## RENEWED RITE PASCHAL CANDLE

Skillfully hand decorated with pure 23.9K gold leaf and embossed symbols made of richly colored waxes.

## RESURRECTION PASCHAL CANDLE

Aptly designed for use during the post-Easter Season.

## ALLELUIA PASCHAL CANDLE

Symbolic of the Resurrection in the purest Christian tradition.

## Beeswax Table Altar Candles

In its raw state, beeswax varies in color from golden yellow to almost black, depending on the care used in the preparation, and also the age and the food of the bees. For this reason, Mack-Miller purchases its beeswax from a source where bees are carefully tended in colonies and their diets supervised.

Since all domestic and most foreign beeswaxes do not qualify for Mack-Miller's highest standards of acceptance, all of its beeswax is imported from a South American country renown for producing the finest beeswax in the world.

It is from this finest imported wax that Mack-Miller's superior quality, beautifully fashioned hand-dipped Mass Candles are made for use in the Church.

Also, unlike most companies, Mack-Miller STILL uses the much slower, costlier, natural filtering process of refining the wax

WITHOUT the use of harsh chemicals which adulterate the beeswax since they adversely affect the natural color, odor, and patina of the finished product.

## Wedding Candles

These Wedding Candles were designed by Mack-Miller to fill the requests of the clergy for a candle to be given to wedding couples at the time of their pre-Cana Conferences. The candle is to be lit during the ceremony as a reminder of the couple's union in God's presence and His part in the ceremony so necessary for a successful marriage.
